ARCHITECT RESIN

Architect Resin: the plain simplicity of concrete encounters artistic creativity, with broad strokes and expanses of colour. Resin is the key, with a range of colours for mixing and matching: warm and cold shades, for creating sophisticated design schemes.

アーキテクトレジン：プレーンでシンプルなコンクリート色が、自由で大胆な色づかいのアートな創造性に遭遇。暖かさと冷たさの色づかいが、洗練されたデザインスキームをクリエイトしていただくための鍵となります。

Back2Back

Back2Back interprets three different types of natural stone. For each of them, the series uses the distinctive features both of the face, the side normally chosen to form the visible floor covering, and of the concealed underside, where exquisite details are revealed.

Back2Backは3種類の違ったタイプの天然石のデザインをベースとしています。FRONTデザインとBACKデザインの両方を用意しました。FRONTデザインは天然石の自然な表情を忠実に再現し、BACKデザインは、天然石を切り出したソーイングの残した跡を再現しています。

WOODTALK

Quiet. Wood is telling its story.
Wood creaking in the wind, groaning
under the weight of our steps. Ergon has
responded to its message and given it new
life, conserving its voice. A voice that tells
tales we must listen to in silence.

静かさ。木は、その物語を語っている。
木々は、風にきしみ、我々のステップの重
みで唸る。Ergonはそのメッセージに

Zero design

A collection of stones gathered from different continents, each with its own distinctive appearance and variegated colouring.

And from rocks that have crumbled over the millennia, sand: wind-blown, pristine and pure.

異なる大陸から集められた石のデザインコレクションです。それぞれが、独特で特徴的な外観と多彩なカラーリング。数千年にわたって、風にうたれ続けられた、自然のままの石を再現。

Any flaws, such as irregularities in the surface and holes of various sizes, make the product unique and are an intrinsic feature of its distinctive character. W-age

W-Age combines the heart and essence of wood with the structure of ceramic tile, its colours, patterns and surface reflections, shared with the wisdom that comes from respect and only revealing its true power when the occasion demands.

W-Ageは、セラミックタイルに木の心とエッセンスを組み合わせ、その色合い、パターン、表面光沢は、必要に応じた時にのみに現れる真の力と尊敬からの知恵が語りかけます。

PULSARCRONO

Colour density and geometry of shapes characterise the streamlined, rounded Pulsar design, which suggests prospective trajectories and soft weaves, where three-dimensionality and movement are the protagonists of the compositions.

濃厚な色と幾何学な形状はストリーミングな流線型を特徴づけ、丸みを帯びたPulsarのデザインは、未来への軌跡と柔らかな織を感じさせ、そこでは3D立体感とムーブメントが作品の主役となります。

A high-tech collection, inextricably intertwined with industrial design: the three-dimensional Nova tiles, made using high strength sintered glass, compose sophisticated textures with changing effects, caused by the refraction of light over the differently inclined surfaces of the mosaic.
